CONVERSATION EXERCISES

The following six conversation exercises are designed to help you begin to learn to carry on simple conversations with others.

The content of these exercises mostly comes from the content of the preceding lessons, although there are some variations.

Sit with a friend and choose which one of you will be either Speaker "A" or Speaker "B".

Exercises with an "A" heading are in English.

Exercises with a "B" heading are in Nipmuck.

First, to get familiar with the exercises, try reading through the "B" exercises (Nipmuck) with your partner.

Then, after you are comfortable, try looking at the "A" exercises (English), and translate the conversation to Nipmuck.

So, as you **read** a line in English,
You will **speak** the sentence in Nipmuck.

These exercises will begin to help you translate your
1st language thoughts (English)
To speaking in Nipmuck

Have fun and Good Luck!!
